Hi John

Got your voice message and yes I believe the CT River Watershed Council is most likely referring to the shortnose sturgeon tagging study we conducted for Holyoke. We tagged 20 shortnose sturgeon per year for 4 years. I certainly have a copies of the reports which were all submitted to FERC so they are public. I'm also curious about a Mt. Tom update. What time is good for you tomorrow and I can give you a call?

Regards  
Chris
